

The Director/Principal,
Dear Sir/Madam,

PROPOSAL TO IMPLEMENT PACUSS SOLUTION

1.0 Introduction

We are pleased to present our detailed proposal with respect to implementing the above named solution for your school. The solution seeks to extend the institution's scope in services delivery. More importantly, our value-oriented solution is multi-pronged but effectively integrated to achieve the desired objectives.

The key objectives of this initiative include:

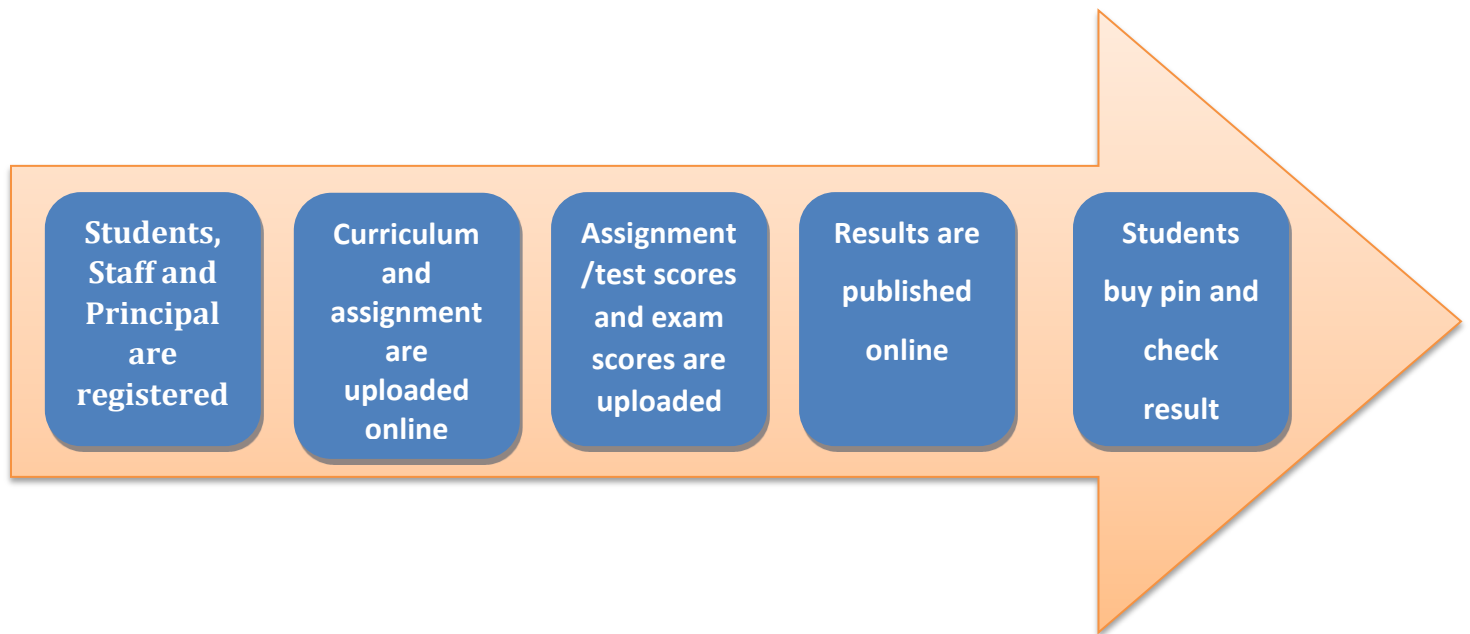

- a) Relief stress and burden from class form mistress in result computation by our system keeping track of the students' grades, divide them into terms, see average grade, position for each subject, total average position and assign accurate position to the students for each class(Sample Result at the appendix).
- b) Collate and store data in the school database.
- c) Access the data and generate any desired report regarding the school management activity from your home screen.

1.1 About Us – Pacuss

Pacuss specializes in ICT solution delivery. Our ICT system are very well advanced that we can have your needs identified and ICT solutions developed, customized and developed within very record time of your order. We are of the view that the world has become one big ICT village and owing to this, we employed capable personnel that pride themselves in their ability to sate the needs of all through ICT.

1.2 Functionalities of the system include:

- + Deploy Result Computation Application.
- + Set-up result upload interface.
- + Upload results online
- + Uploaded results are automatically archived.
- + Comment by the principal/teachers added to the result
- + Result accessible to the students
- + Online assignment.
- + Online curriculum uploads
- + Staff Records Management
- + Parent/Guardian event notification.
- + Graduation year book
- + Alumni profile management
- + Principals ability to notify the staff and the students if need be.
- + Principals' ability to control the flow of information shared by the staff and others.

2.0 Solution Implementation Approach

In order to build an effective and efficient system, the project will require a dedicated work streams to ensure that value is achieved at every stage. The work streams of the project are as follows:

- a) Identification and System development
 - I. Identification of key stakeholders/officers within the school environment and assign role to the stakeholders.
 - I. Web portal design and development to satisfy all requirements.
 - II. Integration of the school manager Portal ;
 - I. Systems security set-up.
 - II. Domain name registration.
 - III. Offshore hosting of the portal in a dedicated and high-end server.

- b) Capacity Building (Trainings)

Detailed training program on the functionalities of the system is very critical for the success of the project. It is also imperative that relevant staff be trained on the basic computer appreciation – including basic training on Microsoft windows and Microsoft excel and also proper use of the internet.

The training programme will be divided into two modules:

- I. Train-the-Trainer Module – This involves training key “responsive and competent staff” of the institution.
 - ✚ System setup
 - ✚ User setup
 - ✚ Data entry interfaces
 - ✚ Management Information System (MIS) – Intelligent Reporting
- II. Support Training – This involves training I.T and Support staff on how to efficiently and effectively support the platform and other systems.
 - ✚ System Operations.
 - ✚ Application Interface Management.
 - ✚ Troubleshooting Problems.

2.1 Commercial Arrangements

Our proposal business modal recognizes the requirements and challenges faced by most institutions in our country, particularly with regards to funding. Consequently, we have worked out a modal that will ensure that the implementation and ongoing support of this initiative does not place any financial burden on your institution.

Pacuss will fund the development of the project; viz development, set-up, training and support services. Pacuss only require a name(domain name) from your institution if the institution do not have. Consequently, students and third parties will pay for certain e-services to be offered to them via the school management solution. Revenue generated will be shared between the school and Pacuss Consultancy in an **agreed ratio**.

2.2 Implementation Approach.

The implementation team will comprise staff of Pacuss and representatives of your institution. The team will work together to ensure a smooth and speedy implementation.

We will be pleased to have further discussions and answer your inquiry.

Below is our contact information.

M: 08136052015 or 07061022291

W: www.pacuss.com

E: consultancy@pacuss.com

We will be delighted at the opportunity to partner with your school and assure you that the project will be given our professional attention.

Yours sincerely,

For Pacuss Consultancy.

Chukwudi Okolo
